

We love the winter and the cold that goes with it! Fresh powder snow, the Alps, skiing and snowboarding makes us really happy! And we think that skiing holidays are the best family holidays. Meanwhile, we have many years skiing experience with children and we want to share this with you!

Safety and fun

Ski helmets have become more and more popular over recent years. In many popular ski destinations it is compulsory for children to wear ski helmets. Our advice: wear a helmet, even if you are an experienced skier or snowboarder, but ski like you haven't got one on! That's the best for everyone's safety! Unfortunately, many children don't like to wear a ski helmet. With Hoxyheads kids love to wear one! And for parents it is much easier to recognize their child (ren) on the slopes.

Our products

Hoxyheads are cheerful and funny covers for your ski helmet! The exterior of the ski helmet cover & ears is made of soft plush and the inside is made of cotton. On the back is an opening so that ski goggles can be fitted. All Hoxyheads have an elastic cord that can be attached to the side pieces of the ski helmet and can be pulled tight in the back for optimal fitting to the helmet. The cover fits almost all ski helmets! Are you looking for an original gift for a winter sports fan? Or are you one yourself and do you like to stand out? Then Hoxyheads is something for you!
